HMDC Presents...

Position Paper Outline

Disarmament and International Security Committee (DISEC)

Topic: Drone Surveillance and Privacy

Harvard MUN Online, December 5-6, 2026

Delegate name:

Country:

Committee:

Date finished:

HOW TO USE THIS OUTLINE

A position paper tells the chairs what our country thinks about the topic and what our country wants the committee to do. It is short, usually about one page, and it has three parts: the problem, what has already been done, and our country's solutions.

This outline is a plan for that paper. Fill in each box in your own words, using the HMDC Report for this committee and your Country Guide. Write short notes first, then turn the notes into full sentences at the end.

WHAT THE CHAIRS WANT IN DECEMBER

In December, the chairs look at how drones watch people and gather information. They want international frameworks, which are shared rules between countries, that support the responsible use of drones while keeping the world safe.

Keep this in mind: Armed drones and killer robots belong to the October session, so a weapons treaty is not our main solution.

THREE BIG QUESTIONS TO ANSWER

1. How does our country use drones to watch people?
2. What privacy rules does our country already have?
3. Which rules should all countries share?

WHERE THE FACTS COME FROM

Every fact in your paper should come from the HMDC Report (HMDC-MUN-DEC-2026-DISEC-REPORT-FULL-v6.pdf) or from a page you opened yourself. Write the source next to each fact, so you can show the chairs where it came from. The official committee page is here:

https://www.harvardmun.org/disec-online

PART 1: THE PROBLEM

Explaining the problem

Start with what the problem is and who it hurts. Use one or two facts with their sources.

Our topic, Drone Surveillance and Privacy, matters because...

The people who are hurt most are... because...

One fact that shows how serious this is: ... (Source: ...)

Connecting the problem to our country

Show the chairs why our country cares.

In our country, this problem looks like...

Our country cares about this because...

PART 2: WHAT HAS ALREADY BEEN DONE

Past action by the UN and other groups

Name one or two things the UN or other countries have already tried, and say whether they worked.

The UN (or another group) has already tried... (Source: ...)

This helped because... but it did not solve... because...

Past action by our country

Name a law, a program or a vote by our country. If you cannot find one, write what our country's friends and partners have done.

Our country has already...

This shows that our country believes...

PART 3: OUR COUNTRY'S SOLUTIONS

Choose one or two ideas that fit our country. These ideas come from the HMDC Report for this committee:

- Strict legal limits on surveillance
- Registration, identification and no-fly zones for drones
- Banning or limiting face scanning from drones
- Export controls on drones and surveillance tools
- Transparency, oversight and accountability

Our main solution

Explain what should be done, who will do it, and how it will be paid for.

Our country proposes that the committee...

This will be done by... and paid for by...

This solution helps because...

Our second solution or a way to work with others

Show that our country is ready to work with other delegates.

Our country also suggests...

We hope to work with countries that...

FINAL CHECK

- ☐ My paper names our country and the committee at the top.
- ☐ Part 1 explains the problem and uses at least one fact with its source.
- ☐ Part 2 names something the UN and our country have already done.
- ☐ Part 3 gives at least one clear solution that fits our country.
- ☐ Every fact has its source written next to it.
- ☐ My paper fits on about one page and uses my own words.
- ☐ I read it aloud once and fixed anything that sounded unclear.

NOTES AND PRACTICE

Use this space for notes on speeches, partners and questions to ask in committee.
