
Welcome to HMDC presents...
Today we will discuss Model United Nations and how to research our topic.

We must research the topic for the country we are assigned.
We need to find our country's position on the topic we will debate.
Today, our example is the country of Canada and the topic of self-driving cars.

1. First, we need to know our country's stance.

What does the government of Canada think about self-driving cars?

Canada supports self-driving cars. Canada wants to use them to make roads safer and help the economy.

Human Mistakes

2. Research: We should do simple searches online to gather facts that we can use as proof about a significant problem or benefit.

For Example... “Many people are hurt in car crashes each year due to human error - 94% of accidents are caused by humans who make mistakes while driving.”

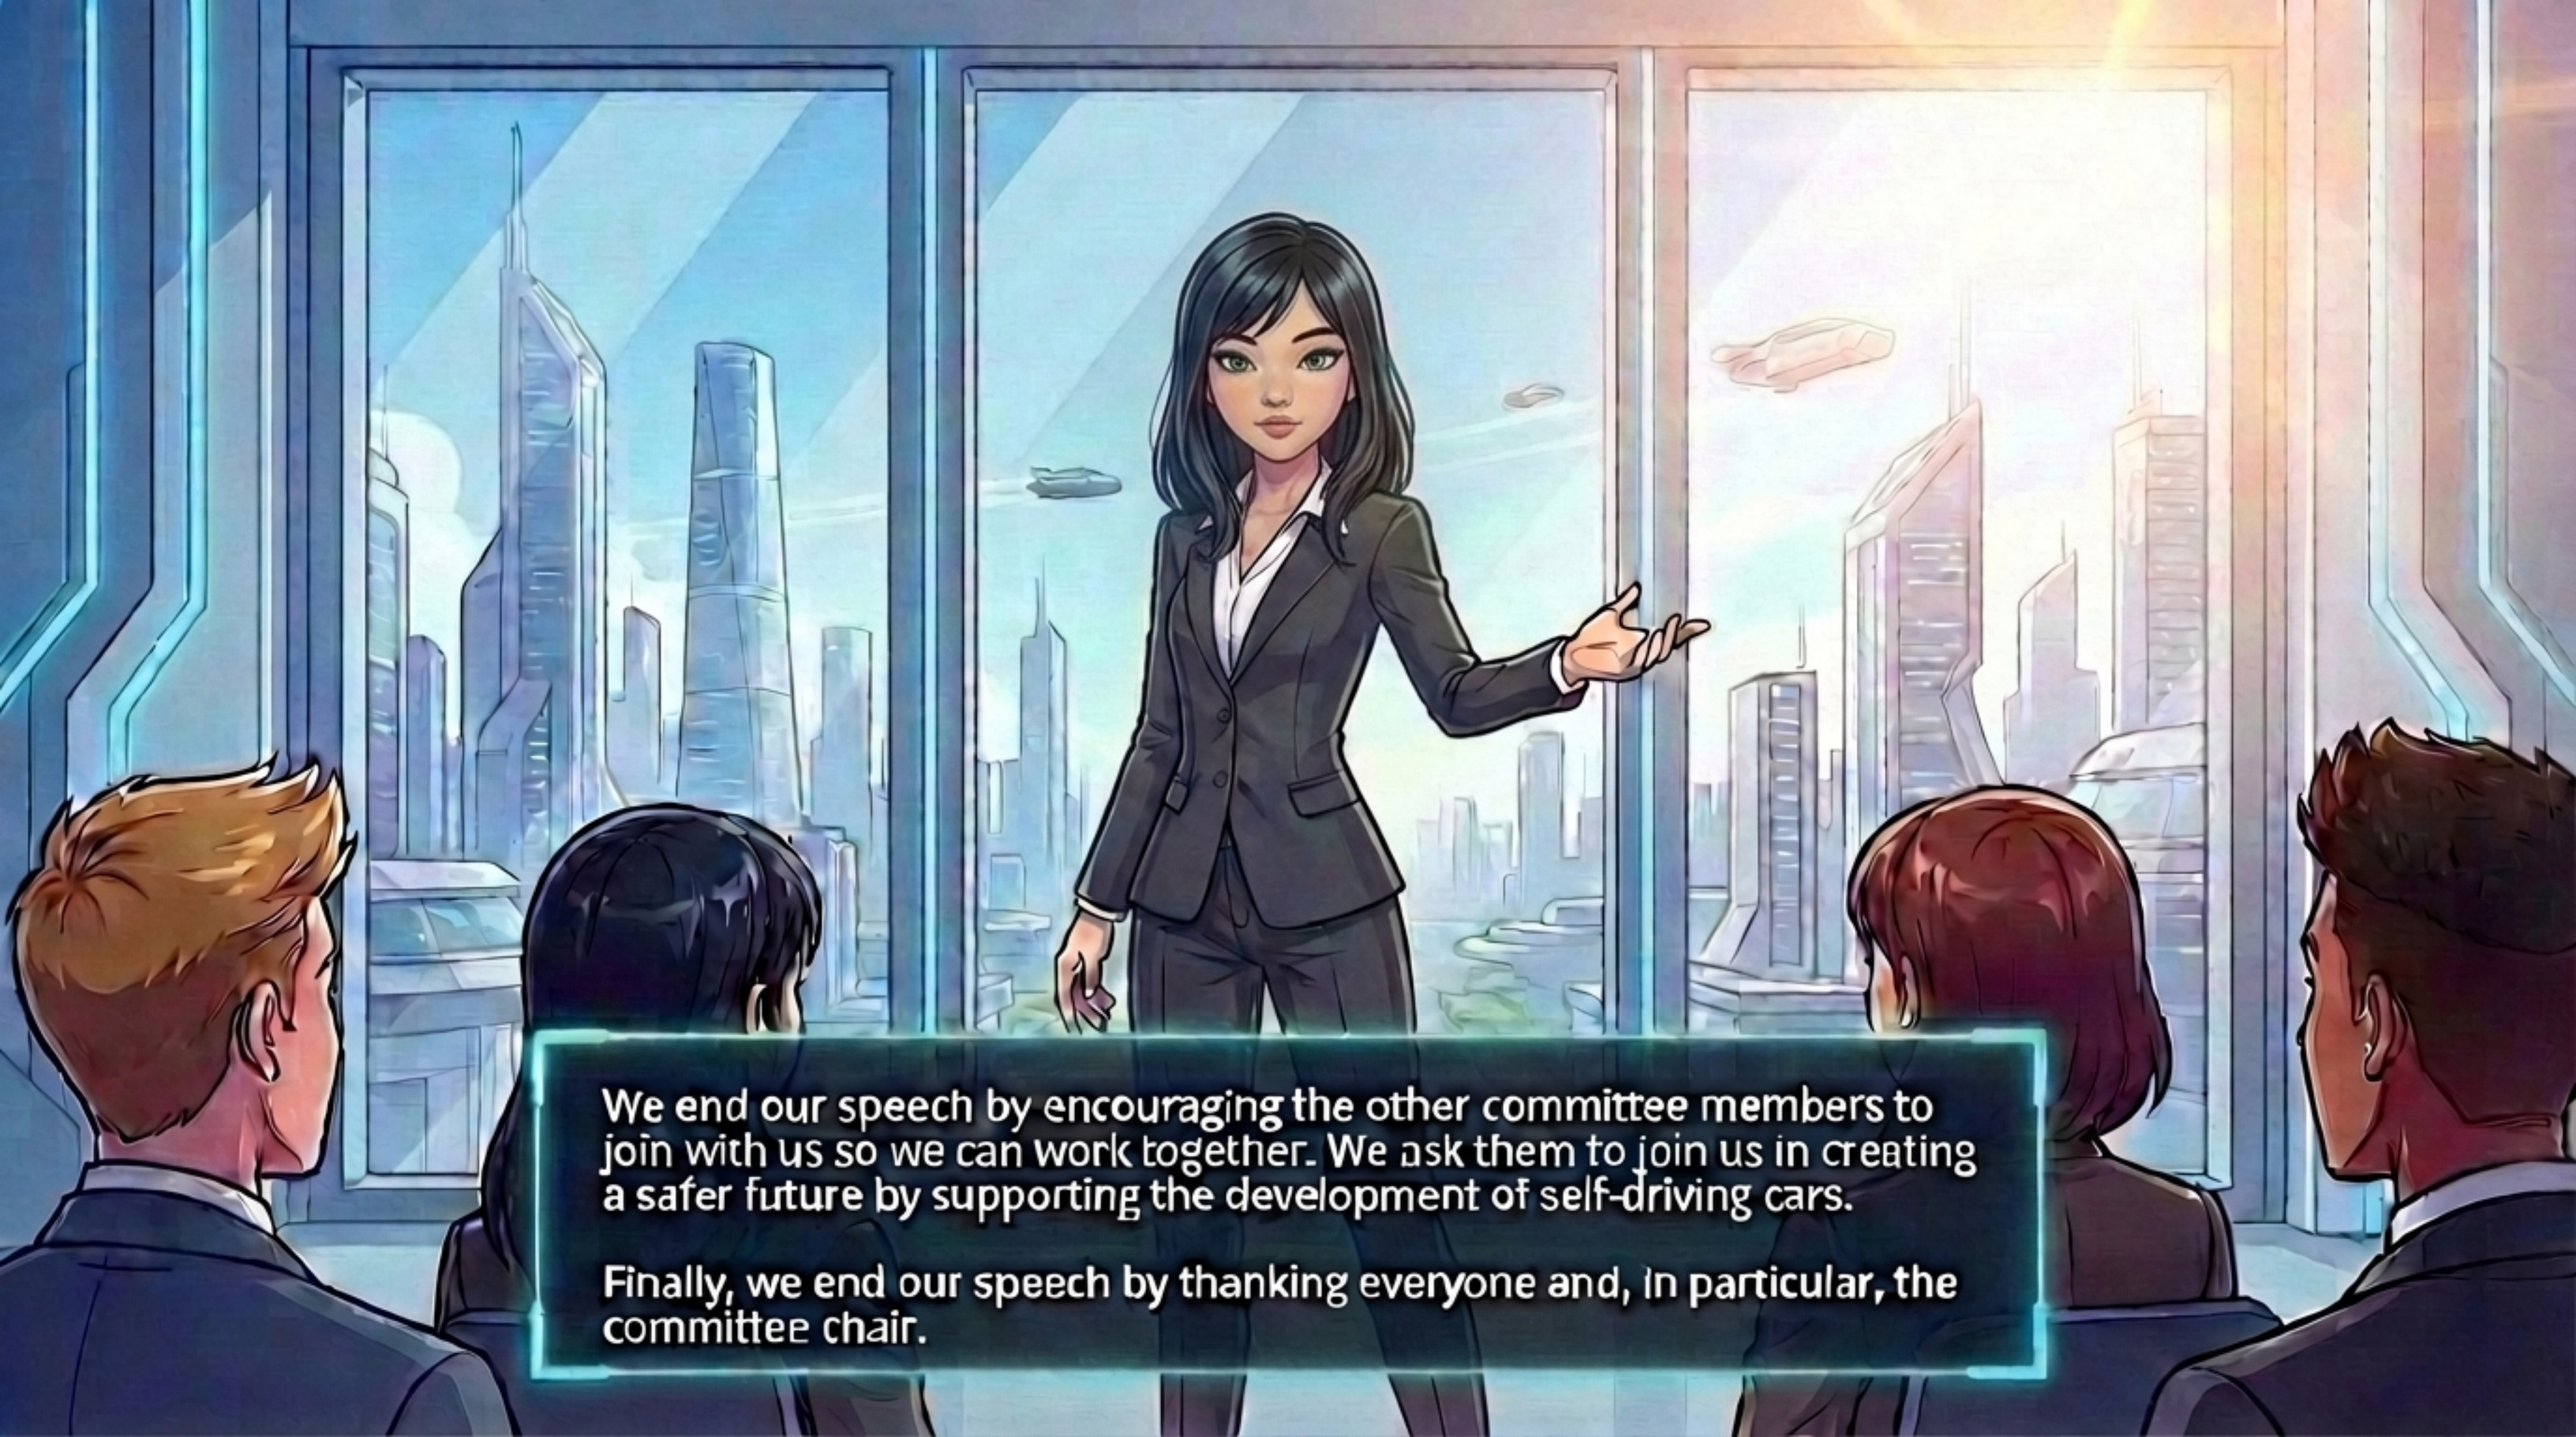

How do self-driving cars fix this problem?

Self-driving cars use computers and sensors to drive, which means these cars will not get distracted, which is a real benefit because this can make our roads much safer.

3. Finally, explain how we can use that information to create the speech itself.
First, we introduce ourselves to the committee. Time is short; to save time, we should focus on just one powerful fact or idea.
For Example...
“Human mistakes are causing nearly 94% of all car crashes.”

Next, we explain our solution to the committee.
Explain how self-driving cars will overcome the problem we mentioned in our fact.
for example...
"Self-driving cars use computers and sensors to prevent crashes, which can save many lives."

We end our speech by encouraging the other committee members to join with us so we can work together. We ask them to join us in creating a safer future by supporting the development of self-driving cars.
Finally, we end our speech by thanking everyone and, in particular, the committee chair.

STEP 1

FIND OUR COUNTRY'S STANCE

STEP 2

GATHER OUR EVIDENCE

STEP 3

ORGANIZE OUR SPEECH

SUMMARY OF OUR STEPS:

1. Find our country's stance on the topic.
2. Gather specific evidence about a problem or a benefit.
3. Organize our speech with an introduction, one powerful fact, a solution, and a call to work together.

Thank you for joining us for this episode of HMDC Presents...

If you have any questions, please contact Coach Bill at billeddy@gmail.com.

Again, thank you for joining us. We hope that you have enjoyed this program.
